

SANCTUARY SERIES

SPECIFICALLY DESIGNED FOR THE CHURCH SANCTUARY

At Sound Construction and Supply, we realize that your audio equipment is an integral part of your worship services. We also realize that you don't want the audio equipment to be the focal point of the room. For this reason, we are proud to introduce our newest line of technical furniture, The Sanctuary Series. Specifically designed to blend harmoniously in any church environment, the Sanctuary Series will discretely house your mixing console as well as additional audio equipment in a built-in 6 space rack. Currently available in three sizes to compliment the Yamaha IM8 Series mixing consoles, custom configurations are also available upon request. With its natural wood accents and tasteful design, the Sanctuary Series is a finely crafted piece of furniture that will compliment any environment.
